OBJECTIVE

A Passionate and aspiring **Front-end developer** with experience creating and maintaining responsive and user-friendly websites. talented with a strong ability to produce great code and work well with others. I am dedicated in making websites accessible and efficient.

PROJECTS

> **Fit-Clan Fitness app**

- Built a Fitness app where each user can view their current fitness level (body fat, calories/day, etc) and can create their own diet plan and are also provided workout plans.
- **Features** - Realtime fetching, Filter Search, responsiveness, Authentication, Routing, Hooks, etc
- **Tools and Technologies** - React, Firebase, Bootstrap.
- **Demo** - *https://fit-clan-lovat.vercel.app*
- **Github** - *https://github.com/UvaishKhan7/fitClan*

> **Ecommerce App**

- Build an e-commerce app having Home,SignIn & SignUp, and Cart Page. From the home page users can view individual products and add them to the cart.
- **Features** - Routing, params, API calls, State management, Search, Filter, responsive.
- **Tools and Technologies** - React, redux-toolkit, Bootstrap.
- **Demo** - *http://h-kart.vercel.app*
- **Github** - *https://github.com/Habeeb8136/ecommerce-app*

> **IMDb clone**

IMDb clone with home, watchlist, signup, and signin page.

- **Features** - Routing, params, API calls, State management, responsive.
- **Tools and Technologies** - React, redux.
- **Demo** - *https://imdb-habeeb.vercel.app*
- **Github** - *https://github.com/Habeeb8136/IMDb-Clone*
